EDUCATION

Monmouth University West Long Branch, NJ
B.A. Computer Science, Cum Laude | GPA: 3.53 *May 2026*
Relevant Coursework: Cyber Security, Computer Networks, Systems & Network Administration, Database Systems, Operating Systems Analysis, Software Engineering, Advanced Object-Oriented Programming

Brookdale Community College Lincroft, NJ
A.S. Computer Science *May 2024*

EXPERIENCE

Monmouth Medical Center (RWJBarnabas Health) Long Branch, NJ
Information Technology Intern *Aug 2025 – Oct 2025*

- Resolved hardware and software incident tickets for clinical and administrative users alongside senior IT staff.
- Built a Windows 11 virtual machine in Hyper-V, configuring storage partitions, memory, and network settings; studied the virtual desktop infrastructure used across RWJBarnabas Health.
- Configured and deployed iPads on the hospital wireless network and to the Foundation office, wiped and restored devices for reuse, and helped set up Windows laptops for hospital users.
- Shadowed Field Services, Clinical Informatics (Epic, Dragon dictation, Imprivata EPCS), and infrastructure work, including a network closet UPS upgrade and executive boardroom AV setup.
- Attended IT security vulnerability reviews and leadership meetings; built a presentation on Clinical Informatics services.

Patient Access Representative *Jul 2023 – Present*

- Register patients and maintain demographic and insurance records in Epic (Prelude), verifying accuracy at every check-in.
- Collect co-pays and balances and explain insurance benefits and costs to patients and families under HIPAA.
- Troubleshoot front-end system issues with IT staff and flag registration workflow inefficiencies, cutting downtime and help desk tickets.
- Train newly hired Patient Access staff on registration workflows and compliance procedures.

PROJECTS

Snippet | *React, Vite, Tailwind CSS, Express, MongoDB, WebRTC, Socket.IO* *May 2026*

- Led a 3-person team building a peer-learning communication platform for campus (26 pages, 28 reusable React components), live at snippet-gp.vercel.app.
- Implemented real-time video, audio, and messaging using WebRTC with Socket.IO signaling, supporting 50+ concurrent users; led code reviews and Vercel deploys.

ShelfLife | *Java, JavaFX, MySQL* *May 2024*

- Built an order management system with real-time order tracking, inventory updates, and history for 100+ daily orders.
- Added input validation and error handling that reduced processing errors by 40%, and optimized SQL queries to improve response times by 30%.

ACHIEVEMENTS

National Cyber League (NCL) – Challenge Coin Recipient *Fall 2025 & Spring 2026*

- Ranked top 4.3% individually / top 2.6% as a team (Spring 2026) and top 5.0% / 2.6% (Fall 2025) of 7,000+ competitors.
- Helped Monmouth University rank #2 of 500+ schools in the NCL Fall 2025 Power Rankings (Standard Bracket).
- Solved cryptography, network traffic analysis, log analysis, and digital forensics challenges in individual and team rounds.

NSF S-STEM Scholar – Brookdale Community College *2021 – 2024*

- Selected for a National Science Foundation scholarship for math-intensive STEM majors, renewed yearly based on academic standing.
- Completed faculty mentorship, a weekly STEM leadership seminar, and a cohort-based math sequence through Calculus II.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, C++, SQL
Web & Data: React, Vite, Tailwind CSS, Express, MongoDB, MySQL, JavaFX, WebRTC, Socket.IO
Systems & IT: Windows 11, Hyper-V, Virtual Desktops, iOS Device Setup, Help Desk Support, Epic (Prelude), HIPAA
Tools: Git, GitHub, VS Code, Eclipse, Vercel, Microsoft Office (Excel)
